

BrightFix Home Services LLC - Internal Cash-Basis P&L

Generated from data/sample_raw_transactions.json via normalization -> deduplication -> classification -> pnl_service.

All 195 canonical transactions classified deterministically and approved; 5 duplicates excluded.

Summary

P&L section	April 2026	May 2026	June 2026	Apr-Jun total
Revenue after refunds	\$98,175	\$106,575	\$95,525	\$300,275
Cost of Goods Sold	\$31,325	\$32,050	\$30,475	\$93,850
Gross profit	\$66,850	\$74,525	\$65,050	\$206,425
Operating expenses	\$44,860	\$46,240	\$47,145	\$138,245
Net profit	\$21,990	\$28,285	\$17,905	\$68,180

Account-level (3-month total)

Account	Total
Repair Service Revenue	\$131,450
Installation Revenue	\$162,900
Maintenance Plan Revenue	\$10,950
Customer Refunds	(\$5,025)
Materials & Supplies	(\$51,050)
Subcontractor Costs	(\$42,800)
Payroll Expense	(\$80,250)
Rent Expense	(\$24,600)
Vehicle & Fuel	(\$4,335)
Software & Subscriptions	(\$4,335)
Marketing & Advertising	(\$8,850)
Insurance Expense	(\$3,675)
Utilities	(\$3,645)
Professional Fees	(\$4,950)
Bank Fees	(\$105)
Office & General	(\$930)
Repairs & Maintenance	(\$2,570)

Independent balance-sheet checksum

Bank account	Ending balance
Operating Checking	\$39,380
Tax Reserve	\$42,000
Combined cash	\$81,380

Checksum: \$68,180 net profit + \$25,000 owner contribution - \$5,000 owner distribution - \$6,800 equipment purchase = **\$81,380**.

All figures above exactly match the pipeline output validated in tests/test_pnl.py and tests/test_duplicates.py.

QuickBooks P&L and reconciliation output

Validated against a live QuickBooks Online sandbox after syncing approved canonical transactions.

QuickBooks setup and sync:

Chart of accounts: 21 available, 0 failed
Synced posted transactions: 183
Internal transfers skipped: 12
Failed syncs: 0
Exact duplicates not synced: 5

Reconciliation result:

2026-04: Reconciled, all differences \$0.00
2026-05: Reconciled, all differences \$0.00
2026-06: Reconciled, all differences \$0.00
Apr-Jun total: Reconciled, all differences \$0.00

See `deliverables/final_validation.md` for the full validation summary.
